01

## People

We attract the best talent because we empower staff, develop capable leaders and offer challenging opportunities that help them realize their potential.

02

## Partnership

We work effectively and in harmony with partners, regulators, governments, shareholders and communities helping improve lives.

03

## Operational Excellence

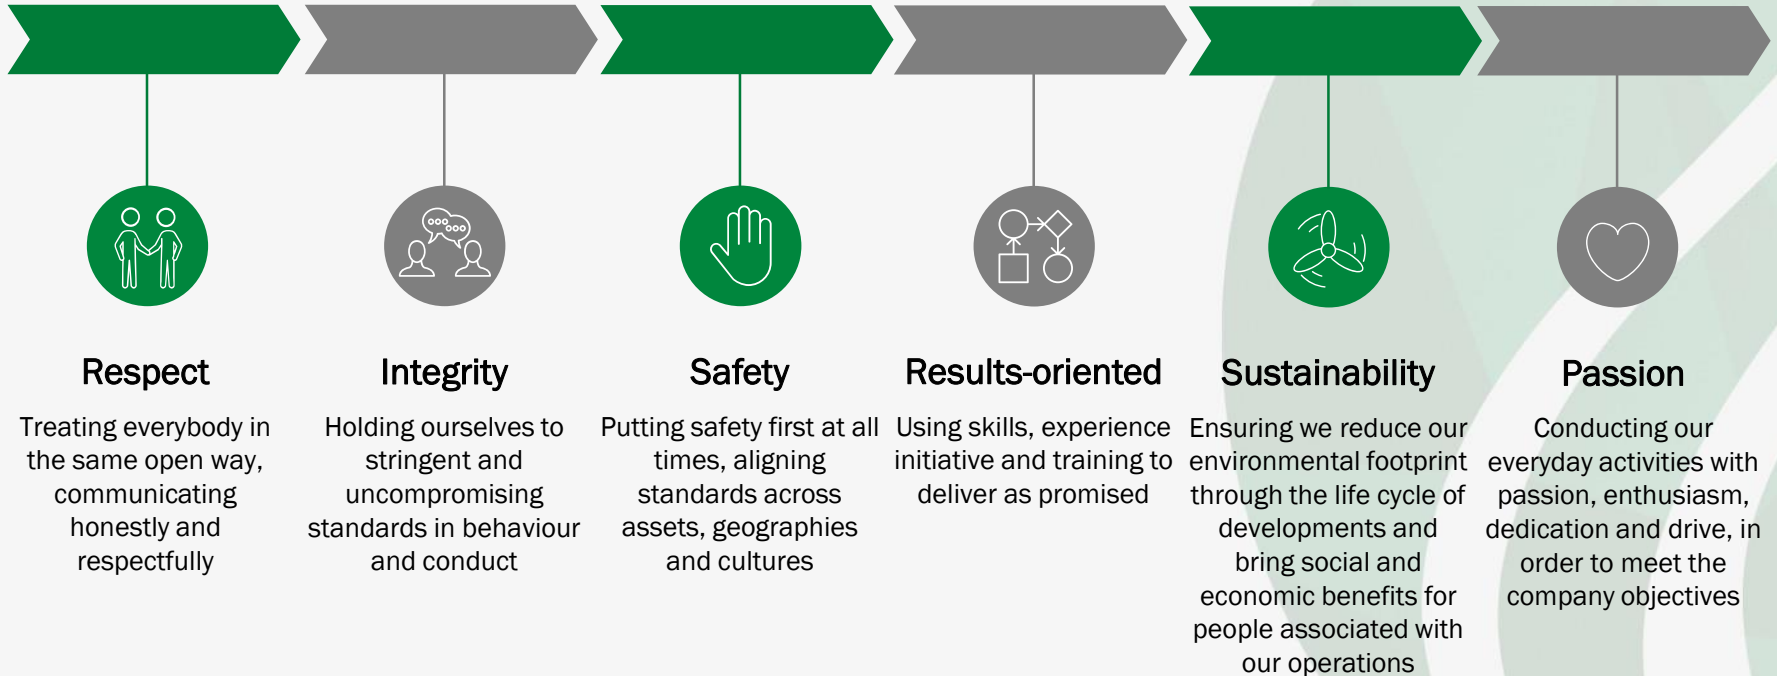

We look to extract maximum value at all stages along the entire value chain from the identification of prospective assets to the delivery of hydrocarbons safely, efficiently, on schedule and on budget.

04

## Efficiency

We do it right first time, look for innovative ways to deliver exceptional value, eliminate waste and learn from experience.

## *Our Ultimate Purpose*

To be a leading independent oil and gas development and production company in Asia Pacific respected as an operator, partner and employer of choice

## Our Essence

*What we are all about*

Delivering exceptional value from oil and gas assets safely and responsibly for shareholders, partners, governments and other key stakeholders. We achieve this by delivering incremental value along the whole value chain that others miss, maximizing recoverable reserves through efficient operations.

## Our Personality

*What we are like*
